- River Creek's $200,000 high-selling selection from the 2025 Keller Broken Heart Ranch sale, no other bull in our lineup has generated more phone calls or inquiries about semen availability. And for good reason. If you have seen him in person, you know MONACO is a true phenotypic standout, offering even more performance than his sire, all packaged in a 3/4 Simmental pedigree.
- On January 6th, MONACO cemented himself as a rising star in the breed. 25 units of semen were sold at public auction, commanding an unprecedented $3,080 average per unit. Selling to top Simmental breeders accross the United States.

- ADV COMPASS L3574 is one of the most unique purebred Simmental bulls the breed has seen to date. He was our $70,000 high-selling selection at the Waggonhammer Ranch 2024 Bull Sale.
- On paper, Compass is a true unicorn—offering the rare ability to inject growth, carcass quality, and profitability into every mating without sacrificing calving ease or maternal performance.
- His first calf crop is on the ground at River Creek and we couldn't be more excited. They came easy and have plenty of look at a young age.

- HEADSHOT pairs elite phenotype with calving ease and performance at a level rarely seen. The IGS database shows only 10 purebred Simmental bulls that match his combination of Calving Ease, Birth Weight, Weaning Weight, and Yearling Weight.
- Sired by TSN Statesman K006, one of the most sought-after bulls in the business whose limited semen inventory is commanding over $400 per unit, HEADSHOT emerges as the blaze-faced heir to the throne. He brings even more style and performance to the table.
