SIRE: DUNOON RECHARGE R102
DUNOON ELINE M459

CLUDEN NEWRY Q182
DAM: CLUDEN NEWRY S233
CLUDEN NEWRY P88

**The record breaker, UPPERCUT U15** is a rare individual who has surpassed everything we have asked of him from day one.

The progeny are now stacking up, with UPPERCUT becoming the first bull under two years of age to rank among the top 25 most used Angus sires in the breed. Calves have been born early with plenty of vigor. The best part, however, has been the phone calls over the past six months from breeders who have used him — they love the calves. Thick, black and long. The kind that catch your eye in the paddock and make you ask, "What's that one by?"

**"UPPERCUT."**

**ULSTERMAN U145** was the calf at side when his dam, Flower N30, topped Millah Murrah's 2023 female sale at $140,000.

Retained for use at Millah Murrah, Ulsterman has been used as a natural mating sire from 12 months of age, combining presence, masculinity & a gentle disposition. A bull that will add frame, he offers length, strong bone, excellent structure & sound sheath and testicles, built to work & last! From a data perspective, Ulsterman excels for structure, with absolutely no holes to be found across the full suite of EBV's.
